(54) Title: SERUM FRACTION OF PLATELET-RICH FIBRIN

(57) Abstract: The invention provides for a method of preparing an isolated serum fraction of platelet rich fibrin (PRF), comprising the steps of a. providing platelet rich plasma (PRP) without the addition of an anticoagulant; b. clotting the PRP to obtain a coagel of PRF; and c. separating the coagel to isolate the serum fraction which comprises an activated platelet releasate; and further provides for the isolated serum fraction obtained by such method, and its medical use.
