Claims

1. A composition comprising a compound of formula (1) or formula (2)

(1)

or

(2)

for use in a method to treat major depressive disorder (MDD) in a human subject, which method comprises administering to said subject an amount of said composition to provide the compound of formula (1) or formula (2) in the amount of 10 milligrams-130 milligrams per day (mg/day);

wherein the amount of compound provided is 40-90 mg/day.
