- with international search report (Art. 21(3))
- before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments (Rule 48.2(h))

(54) Title: A FIREARM WITH A TILTING BARREL

fig. 2

(57) Abstract: A firearm with a tilting barrel (1) with the possibility of setting a change of the tilting direction of the barrel (1) containing a breech block (5) for securing the barrel, the breech block containing on a part of its perimeter a locking surface (11) for securing the firearm against its tilting in the direction opposite the locking surface (11). The locking surface (11) can be rotated around the longitudinal axis of the breech block (5) for setting of the change of the tilting direction of the barrel (1).
