(54) Title: INFORMATION-DISPLAYING UNIT

(57) Abstract: The present invention refers to an information-displaying unit (1) which has a body of a determined geometrical shape internally with an illumination system having in the narrower portions thereof (12) an arrangement for installation of water atomizing nozzles of a body climatization system, and a pedestal (14) to house the components of said system. The right side portion (10) and the left side portion (10') of the information-displaying unit (1) have an arrangement for installation of an information-displaying device (11).
