WRITE HEAD WITH RECESSED STITCHED YOKE ON A PLANAR PORTION OF AN INSULATION LAYER DEFINING ZERO THROAT HEIGHT

ABSTRACT

A write head which has a recessed stitched yoke on a planar portion of a zero throat height (ZTH) defining insulation layer and more particularly to a write head which has first and second components (142 and 144), the first component (142) extending from an air bearing surface (ABS) to form a pole tip and a second component (144) recessed and connected to the first component (142) over a flat portion of a first insulation layer (134) that defines ZTH. The first component (142) is sandwiched between the first insulation layer (134) and the second component (144).
