START
901
Receive, from a remote system, an order comprising at least one item.
903
Search at least one data store to determine dimensions associated with the at least one item.
905
Modify dimensions of at least one largest item of the order using a factor.
907
Select a data structure representing a first package, the data structure comprising a size of the first package.
909
Iteratively simulate packaging the items into the first package based on the modified dimensions, until all items are packaged in the selected package.
911
Generate at least one set of instructions for packaging the items into the selected package.
913
Send the generated instructions to a second system for display, the instructions including at least one item identifier and one package identifier.
END
