

ABSTRACT

**MALEIMIDE RESIN, AMINE RESIN, CURABLE RESIN COMPOSITION, AND
CURED PRODUCT THEREOF**

5

The present invention provides: a maleimide resin which has good curing properties and demonstrates excellent heat resistance and electrical properties; an amine resin derived from the maleimide resin; and a curable resin composition and a cured product thereof. The maleimide resin has repeating units of the following formulae (a), (b), and (c):

10

In the above formulae, R_1 to R_7 represent a hydrogen atom, a hydrocarbon group having 1 to 10 carbon atoms, or a halogenated alkyl group. “l” and “m” each represent a real number of 0 to 5; “n” and “o” represent a real number of 0 to 4. Each of L and M independently represents a real number of 0 to 20, and N represents a real number of 1 to 20. (a), (b), and (c) are joined by *, respectively, and the repeating positions may be random.
