(54) Title: A WATERBORNE DATA CENTER FACILITY AND PROCESS THAT UTILIZES A CLOSED-LOOPED HEAT MANAGEMENT SYSTEM

Fig. 1

Waterborne Data Center - Front Sectional View

(57) Abstract: A waterborne data center facility that utilizes a closed-looped heat management system that is both energy-efficient and cost-effective is disclosed. Embodiments employ a closed-looped, energy efficient, cost effective thermal management system that leverages natural resources to control thermal conditions and reduce the overall requirement for cooling power.
