Claims

1. A sealing label (1) for wrapping a container including a container body (22) and a lid portion (21) detachably attached to an outlet of the container body (22), the sealing label (1) comprising:

an upper region (11) covering all or a part of the lid portion (21);

a lower region (12) covering all or a part of the container body (22);

a cutaway region (13) disposed between the upper region (11) and the lower region (12);

a tear-off line (14,15) provided in a boundary between the cutaway region (13) and the lower region (12) as well as in a boundary between the cutaway region (13) and the upper region (11);

characterized in that an identifying mark (3) comprised of a graphic pattern is provided to the lower region (12) and a further identifying mark (3) same as or similar to the identifying mark is provided to the upper region (11), a region comprised of the upper region (11) and the cutaway region (13) or a region comprised of the upper region (11), the cutaway region (13) and the lower region (12), thereby to allow recognition of unity between the lid portion (21) and the container body (22).

2. The sealing label (1) according to claim 1, wherein a plurality of the identifying marks (3) are provided in the lower region (12); and/or a plurality of the further identifying marks (3) same as or similar to the identifying marks (3) are provided to the upper region (11), the region comprised of the upper region (11) and the cutaway region (13) or the region comprised of the upper region (11), the cutaway region (13) and the lower region (12).

3. The sealing label (1) according to claim 1 or 2, wherein a tab portion (18) for unsealing is provided in the cutaway region (13).

4. A container wrapped with the sealing label (1) according to any one of claims 1-3.

5. The container according to claim 4, wherein a top face (23) of the lid portion (21) is provided with a further identifying mark (3) same as or similar to the identifying mark (3) provided in the sealing label (1).
