

[図1]

[図2]

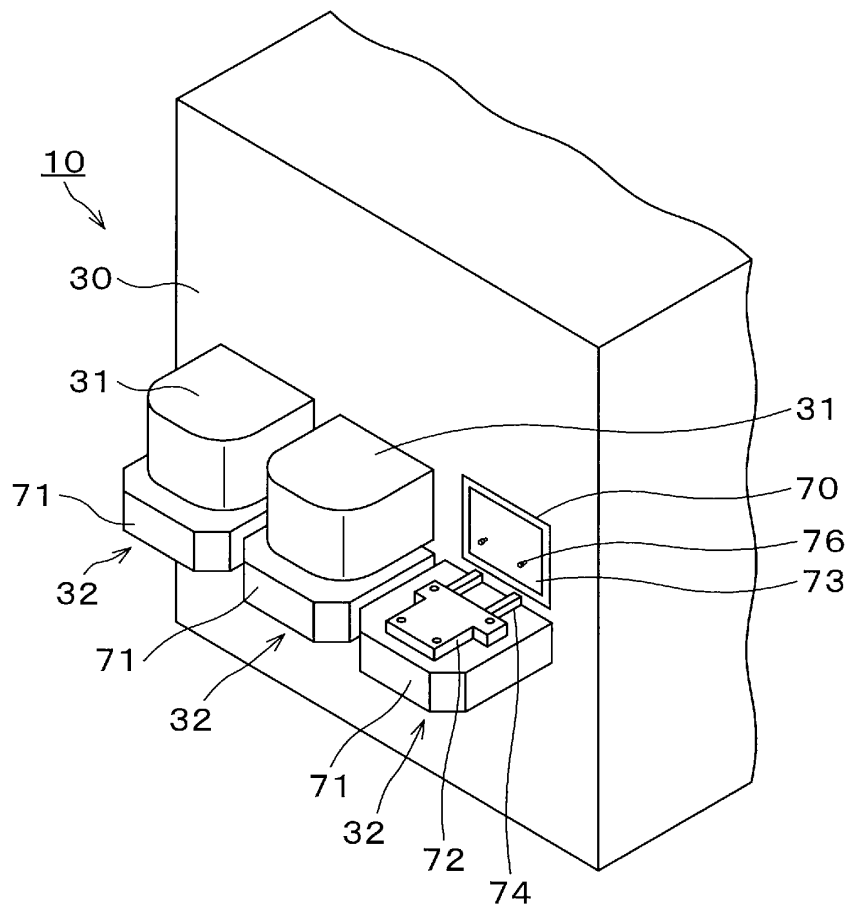

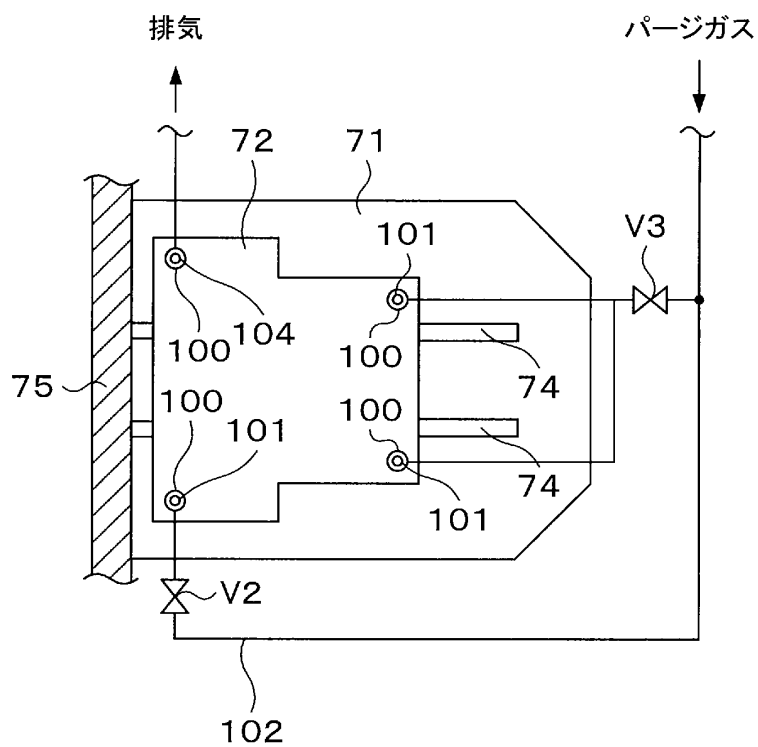

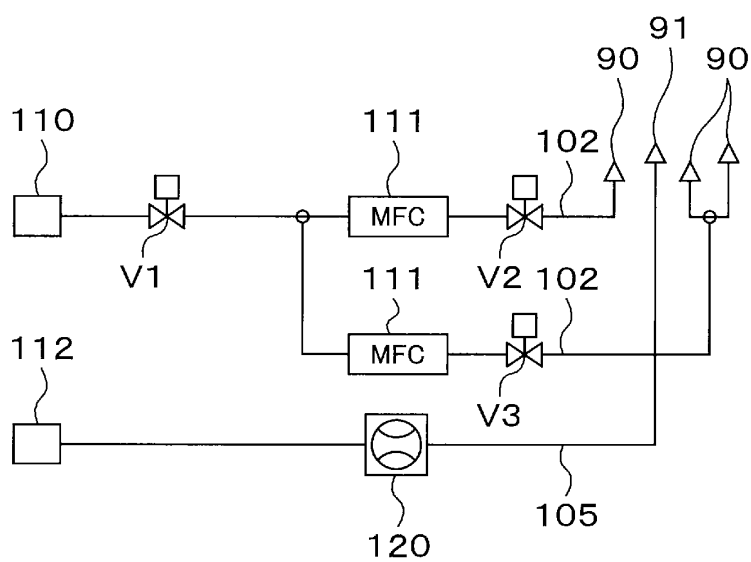

FIG. 1 is a schematic diagram of a first embodiment of a display device. The device includes a rectangular panel 31a. On the left side of the panel, there is a vertical hatched strip 75. At the top-left corner of the panel, there is a small rectangular feature 80. Four circular elements 90 are positioned at the corners of the panel: one at the top-left (near feature 80), one at the top-right, one at the bottom-left, and one at the bottom-right. A label 91 points to the top edge of the panel.
