

FISHING ROD

ABSTRACT

Included are a rod, a pair of fixed and floating hoods into which reel legs of a reel are inserted, a reel sheet through which the rod is inserted; and a cylindrical body that is attached to an end (front end) of the reel sheet and serves as a grip, in which the cylindrical body is attached to an outer peripheral surface of the end of the reel sheet. The cylindrical body preferably comprises a main body portion attached to the outer peripheral surface of the end of the reel sheet, and a hollow extension portion continuous with the main body portion and reducing in diameter in a direction away from the reel sheet.
