(54) Title: DEVICE MENU

(57) Abstract: The present invention relates to an image having distinct image areas as a part of the image, at least one of the distinct image areas configured to match determined device menu functions for functioning as a functional part of a device menu. The present invention also relates to a method for defining a device menu for a device. The method comprises defining distinct image areas in an image and defining at least one of the distinct image areas to match determined device menu functions for functioning as a functional part of the device menu. Furthermore, a device menu comprising such an image and a device comprising such a device menu are disclosed.
