

## Abstract

### HYDROGEN PEROXIDE SOLUTION-PREFILLED SYRINGE HAVING EXCELLENT HYDROGEN PEROXIDE PRESERVABILITY BY VIRTUE OF SILICONE OIL (OIL COMPOSITION CONTAINING SAID SILICONE OIL)

A syringe that suppresses decomposition of hydrogen peroxide is provided. An object of the present invention is to provide a pre-filled syringe having at least a barrel thereof made of a material having high decomposition capability with respect to hydrogen peroxide, including: a hydrogen peroxide solution therein; and an oil composition applied to an inner wall of the barrel, the oil composition containing silicone oil.
