(54) Title: DRYING AND STEAM CLEANING SYSTEM AND METHOD

(57) Abstract: According to one aspect of the present invention, there is provided a drying and cleaning system (100) comprising : a loading compartment (106) for loading articles for drying and cleaning, a heater (126) for supplying dry air to said loading compartment; a steamer (122) comprising a water inlet for connecting to a water source and a steam outlet for supplying steam to said loading compartment; a plurality of sensors (410) for detecting operating conditions of said drying and cleaning system; a control panel (450); and a controller (400) for controlling said drying and cleaning system, based on input from said control panel and input from said plurality of sensors to control said steamer and said heater.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
