

ABSTRACT OF THE DISCLOSURE (FIG. 7)

"PORTABLE ELECTRONIC DEVICE AND FILE MANAGEMENT
METHOD FOR USE IN PORTABLE ELECTRONIC DEVICE"

5 A first decision is made as to whether or not to
make access to a first file defined by a first file
management information, of the plurality of items of
file management information having the same file
identification information, which has file use order
10 information indicating that the first file is first in
the order of use. If the decision is that the first
file is not to be accessed, a second decision is made
as to whether or not to make access to a second file
defined by a second file management information, of the
15 items of file management information having the same
file identification information, which has use order
information indicating the second file is second in the
order of use.
