

METHOD, APPARATUS, AND SYSTEM FOR TRANSMITTING TRAFFIC INDICATION MESSAGE

ABSTRACT

Embodiments of the present invention disclose a method, an apparatus, and a system for
5 transmitting a traffic indication message, which relate to a WiFi (Wireless Fidelity, wireless fidelity)
technology. The method includes: compressing a delivery traffic indication message, and generating
a traffic indication message; and transmitting the traffic indication message, where the traffic
indication message includes compression method indication information and the compressed
delivery traffic indication message. The embodiments of the present invention are mainly applicable
10 to a traffic indication message processing procedure.
