Claims

1. Use of a composition comprising a vegetable powder mixture including buckwheat powders, onion powders, and cacao nibs powders, and/or cricket (Gryllus bimaculatus) powders in the manufacture of a medicament for the treatment of type 1 diabetes.

2. The use of claim 1, wherein the vegetable powder mixture is preferably prepared by mixing 30-50% of buckwheat powders, 25-40% of onion powders, and 10-25% of cacao nibs powders.

3. The use of claim 2, wherein the vegetable powder mixture and the Gryllus bimaculatus powders are mixed at a weight ratio of 1:1.
