CLAIMS

1. One or a plurality of phytocannabinoids selected from the group consisting of tetrahydrocannabivarin (THCV) and cannabidiol (CBD) for use in the treatment of generalised seizures and / or partial seizure.

2. THCV and / or CBD for use in the treatment of generalised seizures and / or partial seizure as claimed in claim 1 wherein the generalised seizures are tonic and / or clonic seizures.

3. THCV alone or in combination with CBD for use in the treatment of generalised seizures and / or partial seizure as claimed in claim 1 or 2 wherein the THCV is present in amount which provides a daily dose of least 1.5mg.

4. THCV alone or in combination with CBD for use in the treatment of generalised seizures and / or partial seizure as claimed in claim 1 or 2 wherein the THCV is present in amount which provides a daily dose of least 15mg.

5. CBD alone or in combination with THCV for use in the treatment of generalised seizures and / or partial seizure as claimed in claim 1 or 2 wherein the CBD is present in amount which provides a daily dose of at least 400mg.

6. CBD alone or in combination with THCV for use in the treatment of generalised seizures and / or partial seizure as claimed in claim 1 or 2 wherein the CBD is present in amount which provides a daily dose of from 400 to 800mg.

7. THCV and / or CBD for use in the treatment of generalised seizures and / or partial seizure as claimed in claim 1 or 2 wherein the THCV and/ or CBD is/ are present as a plant extract and said plant extract comprises less than 5% by weight of tetrahydrocanabinol (THC) as a percentage of any cannabinoids present in the extract.

8. A composition for use in treating generalised seizures and / or partial seizure comprising THCV and or CBD.

9. THCV and / or CBD for use in the manufacture of a medicament for use in the treatment of generalised seizures and / or partial seizure.

10. A method of treating generalised seizures and / or partial seizure comprising administering to a patient a medicament comprising an effective amount of THCV and/ or CBD.

CLAIMS

1. Cannabidiol (CBD) for use in the treatment of partial seizure wherein the CBD is present in an amount which provides a daily dose of at least 400mg.

2. CBD for use in the treatment of partial seizure as claimed in claim 1 wherein the CBD is present in an amount which provides a daily dose of from 400 to 800mg.

3. CBD for use in the treatment of partial seizure as claimed in any of the preceding claims, wherein the partial seizure has developed into a most severe seizure.

4. CBD for use in the treatment of partial seizure as claimed in any of the preceding claims wherein the CBD is used in combination with THCV.

5. CBD for use in the treatment of partial seizure as claimed in claim 4, wherein the THCV is present in an amount which provides a daily dose of at least 1.5 mg.

6. CBD for use in the treatment of partial seizure as claimed in claim 5, wherein the THCV is present in an amount which provides a daily dose of at least 15 mg.

7. CBD for use in the treatment of partial seizure as claimed in any of claims 1 to 3, or in combination with THCV as claimed in any of claims 4 to 6, wherein the CBD alone or in combination with THCV is present as a plant extract.

8. CBD for use in the treatment of partial seizure as claimed in claim 7, wherein the plant extract comprises less than 5% by weight of tetrahydrocannabinol (THC) as a percentage of any cannabinoids present in the plant extract.

9. CBD for use in the treatment of partial seizure as claimed in claim 8, wherein the plant extract comprises less than 1 % by weight of tetrahydrocannabinol (THC) as a percentage of any cannabinoids present in the plant extract.

10. CBD for use in the treatment of partial seizure as claimed in any of claims 1 to 3, alone or in combination with THCV as claimed in any of claims 4 to 6, wherein the CBD alone or in combination with THCV is present as a pure or isolated cannabinoid.

11. A composition for use in treating partial seizure comprising cannabidiol (CBD).

12. The use of Cannabidiol (CBD) for the manufacture of a medicament for the treatment of partial seizure.
