

Abstract

[Abstract]

[Object] To shorten the work time in the step of forming a water-insoluble resin layer having a recessed and projecting shape on a to-be-transferred body.

[Solving Means] A transfer sheet (10) for forming a recessed and projecting shape includes: a water-soluble resin layer (20) that is formed of a water-soluble resin whose dissolving time in distilled water at 25°C is 0.2 s/ μ m or more and 1.0 s/ μ m or less and includes recesses and projections on a first surface thereof; and a water-insoluble resin layer (30) that is stacked on the first surface.
