

In response to determining that a target candidate cell configuration used by the terminal is changed to unavailable, keep or discard a TA corresponding to a target candidate cell

101

FIG. 1

In response to determining that a target candidate cell configuration used by the terminal is changed to unavailable, based on network configuration indication information sent by a network side device, keep or discard a TA corresponding to a target candidate cell

201

FIG. 2

In response to determining that a target candidate cell configuration used by the terminal is changed to unavailable, based on a protocol agreement, keep or discard a TA corresponding to a target candidate cell

301

FIG. 3

Determine that a terminal keeps or discards uplink timing TA corresponding to a target candidate cell, where the target candidate cell is associated with a target candidate cell configuration of the terminal changed to unavailable
