ABSTRACT

Provided are a target content search method and apparatus, an electronic device, and a storage medium. The method includes determining (S110) a target search identifier in search content to be processed and determining (S110) a target search strategy corresponding to the target search identifier; generating (S120) target search content corresponding to the search content to be processed according to the target search identifier, the target search strategy, and the search content to be processed; and searching out (S130) target content corresponding to the target search content from text information.
