(54) Title: SUPERABSORBENT POLYMERS COMPRISING DIRECT COVALENT BONDS BETWEEN POLYMER CHAIN SEGMENTS AND METHOD OF MAKING THEM

(57) Abstract: The present invention relates to superabsorbent polymer particles with improved surface cross-linking and their use in absorbent articles. Superabsorbent polymers of the invention comprise polymer chain segments, wherein at least a part of these polymer chain segments are cross-linked to each other through direct covalent bonds. Moreover, the invention relates to a process for making these superabsorbent polymer particles.
