(54) Title: INTEGRATED ANTENNA ARRANGEMENT

FIGURE 2

(57) Abstract: There is provided an antenna arrangement (10) comprising a directional antenna assembly (2), the directional antenna assembly comprising a directional antenna (22) intended to be mounted on an interface (50) delimited by a stationary support structure (5), the directional antenna generally extending according to a main axis (11) perpendicular to the plane defined by said interface, wherein the antenna arrangement (10) further comprises a rotatable base (3) mounted on said interface, said rotatable base (3) comprising a pole (40) integral with said rotatable base (3), said pole extending in the direction of said main axis, said rotatable base (3) being rotatable about the main axis (11), a rotation of said rotatable base actuating the rotation of the pole (40) about the main axis.
