(54) **Title:** CLOSURE ASSEMBLIES FOR MOVABLE PARTITIONS, MOVABLE PARTITION SYSTEMS INCLUDING CLOSURE ASSEMBLIES AND RELATED METHODS

**FIG. 3**

(57) **Abstract:** Closure assemblies for movable partitions may include a leading end assembly having a first side and a second side and a latching assembly coupled thereto. The latching assembly may include a first latching member having a portion thereof positioned proximate to the first side and a second latching member having a portion thereof positioned proximate to the second side. Movable partition systems may include a plurality of hingedly coupled panels movably coupled to a track, and a leading end assembly coupled to at least one panel of the plurality of hingedly coupled panels. The leading end assembly may include at least two latching features positioned on the leading end assembly. Methods of securing a movable partition may include retaining a first latching member to an extended position and extending the first latching member and the second latching member to an extended position.

(88) Date of publication of the international search report: 10 May 2012 Date of publication of the amended claims and statement: 28 June 2012
