WO 2023/049857 A8

(54) Title: HYBRID OLEFINIC COMPOSITIONS COMPRISING RESIN COMPOSITIONS POLYMERIZABLE BY ADDITION OR CONDENSATION POLYMERIZATION REACTIONS

(57) Abstract: The invention relates to hybrid compositions comprising at least one cyclic olefin monomer composition; at least one resin composition polymerizable by addition or condensation polymerization; and, optionally, at least one additive. The invention also relates to articles of manufacture made from the hybrid compositions of the invention, and methods of making the articles. The invention also relates to coating compositions comprising the hybrid compositions of the invention, and to objects or substrates coated with the coating compositions of the invention, which may then be cured. The invention also relates to methods of coating the objects or substrates with the coating compositions of the invention. The invention further relates to the use of the hybrid compositions of the invention as adhesives.
