

ABSTRACT

**System, Apparatus, and Method for Correcting Vision Using an Electro-Active
Lens**

An electro-active spectacle lens (700) is disclosed. The disclosed lens includes a first lens optic. The disclosed lens also includes a first electro-active zone (720) positioned in a cooperative relationship with the first lens optic. In certain embodiments, the electro-active lens includes a range finder positioned in a cooperative relationship with the electro-active lens.
