ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.*

(54) Title: PROCESS FOR THE PREPARATION OF OPTICALLY PURE OR ENRICHED RACEMIC TETRALONE

(57) Abstract: A process for producing substantially optically pure sertraline utilizes chromatographic separation on a solid station-
ary chiral phase of spherical clay particles having an interlayer containing an optically pure metal-organic complex, and a liquid
mobile phase preferably containing at least methyl acetate. The liquid mobile phase is preferably free of acetonitrile. The process is
operable at temperatures above 40°C.
