

DEUTERATED HETEROCYCLIC COMPOUNDS AND THEIR USE AS IMAGING AGENTS

Abstract

The present invention relates to deuterated and optionally detectably labeled compounds of formula (I) and formula (V):

and salts thereof, wherein R^1 , R^2 , A, and X_{10} - X_{19} have any of the values defined in the specification. Also included are pharmaceutical compositions comprising such compounds and salts, and methods of using such compounds and salts as imaging agents.
