(54) Title: ELECTRICAL HAIR BUFFING APPARATUS

(57) Abstract: A hair-removing and exfoliating device is provided with a pair of counter-rotating abrasive surfaces for pressing against the skin to abrade hair therefrom and to exfoliate the skin. The surfaces may be adapted for continual alternating movement in counter-rotating directions at the surface of the skin. In the preferred embodiment, two concentric counter-rotating abrasive surfaces are provided, one rotating clockwise and the other rotating counterclockwise.
