

Abstract

A process for the reaction of an organic compound with a hydroperoxide comprises at least the steps (i) to (iii) below:

- (i) reaction of the hydroperoxide with the organic compound to give a mixture comprising the reacted organic compound and unreacted hydroperoxide,
- (ii) separation of the unreacted hydroperoxide from the mixture resulting from step (i),
- (iii) reaction of the hydroperoxide separated off in step (ii) with the organic compound.
