

REEL SEAT FOR FISHING

[Abstract]

[Object] To provide a reel seat for fishing in which the user's fingers do not touch the reel stand.

[Solution] A reel seat secures, in an up-locking manner, a reel stand R2 of a fishing reel including the reel stand and a reel foot R3, and the reel seat includes: a reel seat body 11 that is made of resin and includes a fixed hood 21 and a hollow portion into which a rod S is inserted; a movable hood 12 that is made of resin and moves in the axial direction along the reel seat body 11; and an operating sleeve 13 that moves the movable hood 12 in the axial direction; wherein when the reel stand R2 is inserted into the fixed hood 21 and the movable hood 12 and secured, the fixed hood 21 and the movable hood 12 cover the reel stand R2 up to the reel foot R3.
