

ABSTRACT5 WATER-BASED SILVER-SILVER CHLORIDE COMPOSITIONS

The present invention relates to silver/silver chloride polymer compositions for use in making electrodes. The composition comprises:

- 10 (a) 3-15% water dispersible polymer wherein
 the polymer is an acrylic, urethane or
 blends;
 (b) 25-95% Ag;
 (c) 5-75% AgCl; and

15

wherein (a), (b), and (c) are dispersed in water and at least 1% wt. organic co-solvent.
