(54) Title: DIGITAL CAMERA DEVICE WITH INTERNAL PRINTER (57) Abstract The specification discloses a range of printer applications including a sticker printing camera device and cartridge assembly, a PC disk drive bay printer, a PCMCIA printer and camera using such a printer, digital mobile phones with and without a print media supply, a video game console device and a digital printer cartridge with integral print media transport mechanism. As a result, the specification contains 37 pages of description, 143 claims and 88 sheets of drawings. The first invention is a digital camera (1) with an internal printer. The camera has a photo take button (14), view finder (10), camera lens (12), and a print button (15) that operates an internal inkjet print-head. The camera further has a sticker storage and feed means, an image sensor, an ink supply and means to deliver ink to the print-head to enable printing of the sensed image on a sticker.
