(54) Title: USE OF VACCINES FOR THE TREATMENT/ PREVENTION OF THE TRANSMISSION OF INFLUENZA PATHOGENS BETWEEN SPECIES

(57) Abstract: The present invention relates to a method for prevention of the transmission of a pathogen of an animal of a first species to an animal of a second species characterized in that antigen of the pathogen of the animal of the first species is used for the immunization of the animal of the second species against the pathogen of the animal of the first species, wherein the administration of said antigen results in the reduction or the absence of the reproduction of pathogen of the animal of the first species in the animal of the second species.
