a first processing room
formation of a TFT substrate
formation of an anode
formation of an insulating film to be a bank later
operation testing of the TFT substrate
(formation of an anti-electrostatic film)
moving
second processing room
arrival of the TFT substrate
operation testing of the TFT substrate
(removal of the anti-electrostatic film)
formation of a light emiting element
formation of an organic compound layer
formation of a cathode
formation of an insulating film
