(54) Title: COLORED CONTACT LENS PRIMARY PACKAGING

(57) Abstract: A contact lens package (100) includes a substrate (110), wherein the substrate (110) includes a color component configured to provide a contamination detecting contrast to the substrate (110). Additionally, the color component provides a psychological message of cleanliness so as to reinforce compliance with good hygiene practices, or to provide a unique selling point for the finished product.
