

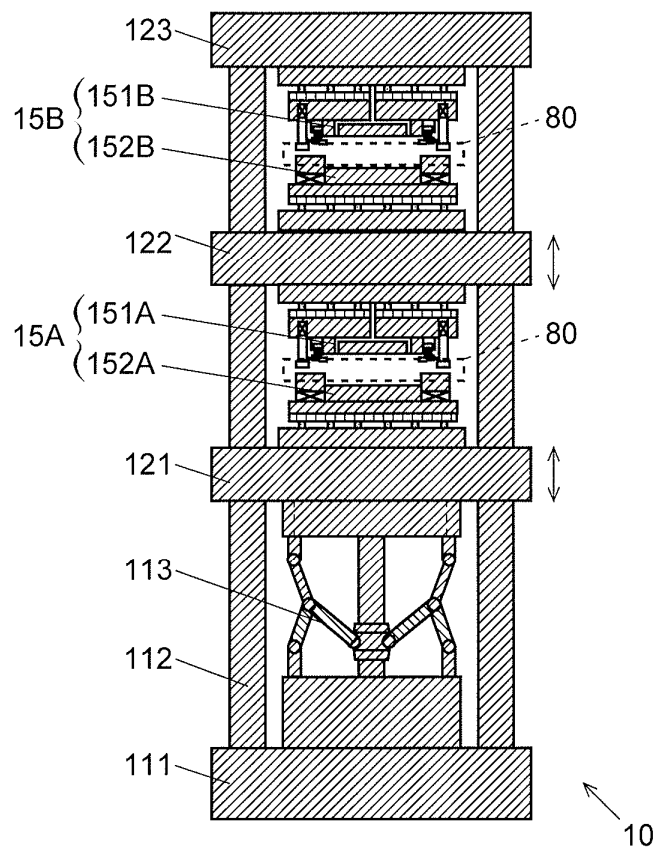

FIG. 1A

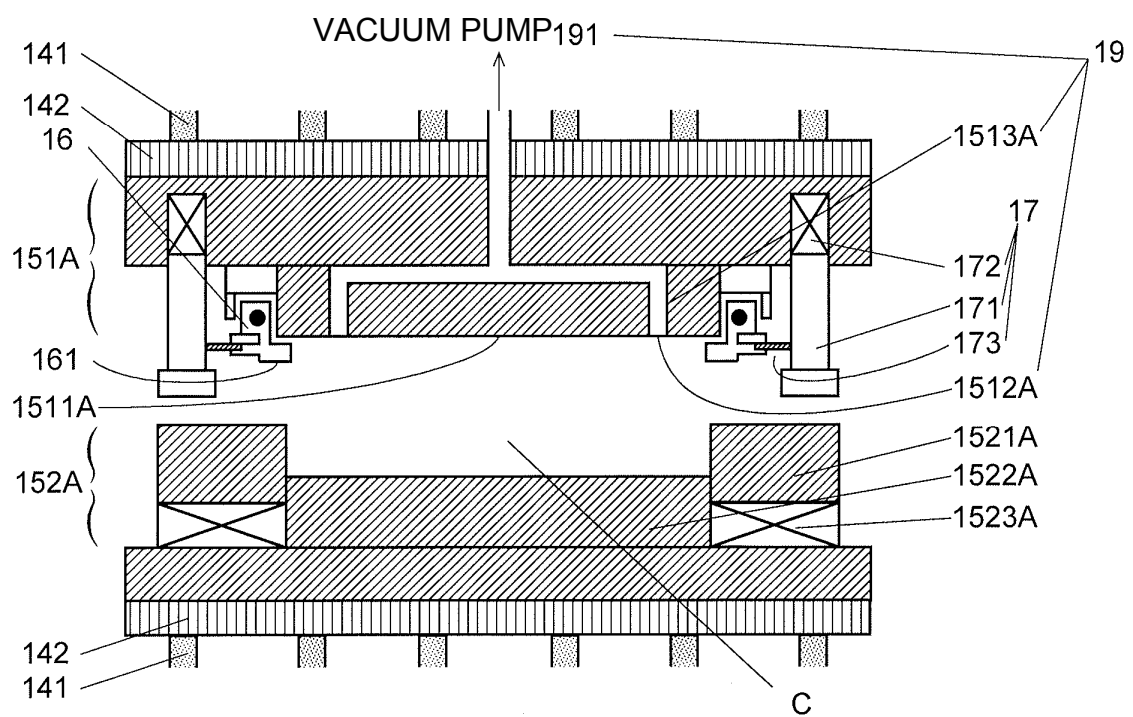

FIG. 1B

FIG. 16 is a cross-sectional view of a second embodiment of the holding device. It shows a base 161 with a vertical wall 163 and a horizontal surface 164. A curved member 162 is pivoted to the wall 163, with a pivot point 165. A dashed line 173 indicates a horizontal surface. An arrow points left towards the "HOLDING SURFACE SIDE".
