(54) Title: STACKED INTEGRATED COMPONENT MEDIA INSERT FOR AN OPHTHALMIC DEVICE

**FIG. 1**

(57) Abstract: A method for forming a stacked integrated component layer insert and a stacked integrated component layer insert is described. The component layer insert comprises substrate layers with functionality. The substrate layers are assembled to form electrical interconnections between the substrate layers creating a stacked feature. The stacked feature is encapsulated with a material for bonding within the body of a molded ophthalmic lens.
