

IMAGE-PROCESSING DEVICE, IMAGE-PROCESSING METHOD, AND STORAGE  
MEDIUM ON WHICH PROGRAM IS STORED

ABSTRACT

5           An image-processing device includes: a reliability calculation unit configured to  
calculate reliability of a character recognition result on a document image which is a  
character recognition target on the basis of a feature amount of a character string of a  
specific item included in the document image; and an output destination selection unit  
configured to select an output destination of the character recognition result in  
10 accordance with the reliability.
