(54) Title: SCHEDULING CLIENT FEEDBACK DURING STREAMING SESSIONS

(57) Abstract: The systems and methods include scalable feedback during point-to-multicast (PtM) streaming sessions with user feedback during a broadcast/multicast streaming session. The method of providing scalable feedback during PtM streaming sessions can include communicating data from a sender to at least one receiver and communicating feedback from at least one of the at least one receiver to the sender during a multimedia streaming session.
