FILM FOR PROTECTING MOTHER GLASS FOR FLAT PANEL DISPLAY AND USE THEREOF

ABSTRACT OF THE DISCLOSURE

An object of the present invention is to provide a surface protecting film which dramatically improves an efficiency of transporting and storing a mother glass, has better peelability from an adherend when peeled without polluting a mother glass surface, and gives reinforcing effect, and use thereof, by using a pressure-sensitive adhesive protecting film. There is provided a film for protecting a mother glass for a flat panel display, characterized in that a rear side is unevenly-processed, and a pressure-sensitive adhesive side is smoother than a rear side.
