

## **Medicinal White Oil Compositions and Preparation Thereof**

### **ABSTRACT**

A medicinal white oil composition is prepared from an isomerized base oil. The isomerized base oil is filtered through a filter bed containing an acid activated clay having a surface area of at least 100 m<sup>2</sup>/g, for the base oil to be in compliant with at least one of European Pharmacopeia 3<sup>rd</sup> Edition, US Pharmacopeia 23<sup>rd</sup> edition (USP), FDA 21 CFR 172.878 and FDA 21 CFR 178.3620(a) for direct food contact, and FDA 21 CFR 178.3570 (USDA H-1). The medicinal white oil in one embodiment has a UV absorbance at 260 to 350 nm of less than 0.1.
