

MELAMINE DECORATIVE LAMINATES, AND METHOD FOR PRODUCING THEREOF

ABSTRACT

Provided is a melamine decorative laminate that includes a decorative layer and a core layer, and the decorative layer includes a cured product of melamine resin composition and a decorative paper having a patterned part containing a substance nonadhesive to the cured product of the melamine resin composition. The melamine resin composition contains 0.1 to 4.0 parts by weight of silane coupling agent with respect to 100 parts by weight of melamine resin in solid content. The melamine decorative laminate includes a surface in which a recessed part is formed on an upper portion of the patterned part.
