(54) Title: CONTAINER FOR PIECE GOODS

(57) Abstract: A container for holding a product, preferably a product
in pieces, in particular an edible product, such as sweets, chocolates and
the like. The container consists of a container body (10) and comprises
product side and base retaining means and at least one outlet opening
(25) through which the product comes out. The container body has a
polygonal base and there are container closing means, consisting of a
lid for closing the product outlet opening, which is suitably connected
to the container body.
