

A cross-sectional view of a device. It features a central vertical cavity. At the bottom of this cavity is a rectangular block labeled 29. The cavity is lined with a material labeled 30. The outer walls of the device are labeled 4. A horizontal layer labeled 5 is positioned above the central cavity. The top of the device is labeled 22. A dashed line indicates a vertical centerline. Other labels include 33, 24, 6, 34, and 7.
