# SYSTEM FOR SELECTION OF RF INPUT TERMINALS AND ASSOCIATED SCAN LISTS

## ABSTRACT

In a television receiver including a plurality of RF input terminals (A,B,C), each of which having a respective scan list, the channel numbers of respective scan lists are displayed in respective colors to indicate to the viewer which RF input terminal (A,B,C) and associated scan list is selected. In one embodiment of the invention, the RF input terminals (A,B,C) and the antenna selection keys (275a,285a,295a) of a user-operable keyboard (200a) are color-coded to correspond to the color-coded channel numbers.
