CLAIMS

1. An ophthalmic product comprising:
a composition having a pH of 5.5-6.5 and comprising glycyrrhizin, hyaluronic acid or a salt thereof, a viscosizing agent, and a buffer being citric acid-sodium citrate, wherein said viscosizing agent is tamarind seed polysaccharide, or said viscosizing agent comprises a mixture of tamarind seed polysaccharide, with one or more of PVP, carboxyvinyl polymers, xanthan gum, carboxymethylcellulose, hydroxyethyl cellulose, hydroxypropyl methylcellulose, mucopolysaccharides, cellulose and esters, natural gums and their esters, pectins, polyacrylates, and
ophthalmologically acceptable excipients.

2. The ophthalmic product of claim 1, wherein, in the composition, said glycyrrhizin is in concentration up to 5.0 wt%, preferably 0.05-3.0 wt%, based on the weight of the composition.

3. The ophthalmic product of claim 1 or 2, wherein, in the composition, said hyaluronic acid or a salt thereof is in concentration up to 5.0 wt%, preferably 0.01-3.0 wt%, based on the weight of the composition.

4. The ophthalmic product of any one of claims 1-3, wherein, in the composition, said viscosity agent is in a concentration up to 5.0 wt%, preferably 0.01-3.0 wt%, based on the weight of the composition.

5. The ophthalmic product of any one of claims 1-4, wherein, in the composition, said viscosizing agent is tamarind seed polysaccharide, preferably in a concentration of 0.05-2.0 wt%, based on the weight of the composition.

6. The ophthalmic product of any one of claims 1-5, wherein, in the composition, glycyrrhizin and hyaluronic acid or a salt thereof are in a weight ratio of 1:1 to 1:20, preferably 1:1 to 1:10, more preferably 1:1 to 1:5.

°°°

7. The ophthalmic product of any one of claims 1-6, wherein, in the composition, glycyrrhizin and viscosizing agent are in a weight ratio of 5:1 to 1:15, preferably 3:1 to 1:10, more preferably 2:1 to 1:5.

8. The ophthalmic product of any one of claims 1-7, wherein, in the composition, hyaluronic acid or a salt thereof and viscosity agent are in a weight ratio of 1:2 to 10:1, preferably 1:1 to 5: 1, more preferably 1:1 to 3:1.

9. The ophthalmic product of claim 1, said ophthalmic product being a tear substitute, a collyrium, a suspension, an eye spray, a foam, an impregnated wipe, a spray patch, or a combination thereof, preferably being a tear substitute.

°°°
