(54) Title: STABLE PUMPABLE SYNTHETIC DETERGENT COMPOSITION AND PROCESS FOR THE STORAGE THEREOF (57) Abstract Liquid compositions comprising acyloxy alkane sulfonic acid salt, paraffin, water, optional salt reactant, and optional fatty acid are provided which have improved stability and pumpability. Also a method of preparing and a method of storing these compositions are provided utilizing temperature and particle size limitations. The composition, method of making, and method of storing the composition provide improved storage stability, pumpability, and a decrease in processing time for the incorporation of the composition into finished bar formulations.
