ABSTRACT

The present disclosure provides a live streaming processing method and apparatus, a device, and a storage medium. The method includes: in response to a switching operation for a live streaming video page, jumping from the live streaming video page to a target page, and displaying a window on the target page and displaying first information on the window; and in response to a preset trigger operation acting on the window, displaying the live streaming video page and displaying a display resource corresponding to the first information on the live streaming video page.
