— *without international search report and to be republished upon receipt of that report (Rule 48.2(g))*

(54) Title: SECURING ASSEMBLY, BASE, AND LIFTING AID

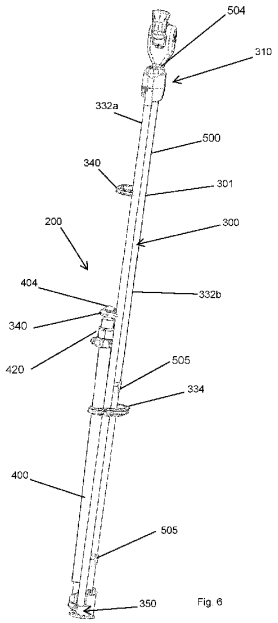

Fig. 6

(57) Abstract: A base for a securing assembly having a lower end that secures objects to a structure, the base including, a base frame having a joining wall and at least two sidewalls extending from the joining wall to an opening for receiving the lower end in a cavity; a base pin extending between the sidewalls for attaching the base to the structure; an arm movable between an open position, wherein the arm is positioned such that the lower end is movable through the opening, and a securing position, wherein the arm inhibits movement of the lower end from the cavity.
